

LEARN THE RHYME : « *Some verbs with GET* »

To learn some verbs we use with « **get** », here are some rhymes you've not heard yet.

If you learn them bit by bit, then pretty quick you will **get it**.

But if you think my rhymes are wrong, then we will never **get along**.

(You've now **got to** my line 4, do you want a few lines more ?)

Maybe you need a holiday ? I think you need to **get away**.

The map that you recently found, will surely help you **get around**.

What fun things you're going to do ! What fun things to **get up to** !

(How's your progress on my song ? How do you think you're **getting on** ?)

The lines were hard in this poem, but one day you'll **get over** them !

Now, write the verbs with get next to the equivalent verbs in French :-

Example : arriver à = **GET TO**

- (bien) s'entendre = GET _____
- avancer, progresser = GET _____
